

Target Skills Gold

Your personalised online learning system

TARGET SKILLS®

What is it?

Target Skills Gold is a modern and convenient way to provide online assessment, *Skills for Life* learning material and access to practice and the National Tests for your learners. It comes complete with a fully integrated online reporting system and is flexible and learner centred.

Learners can access their own learning space from anywhere that they can get to the Internet – at home, at work, at college, or in a learning centre or library.

Wherever tutors are situated, if they can get online, they can support their learners. It is a cost effective way of ensuring that staffing resources are well utilised.

Target Skills Gold is delivered completely online – by logging on to your organisation's own area of *Target Skills Gold* learners can access the screening quiz, the initial assessment and all the *Target Skills* learning resources.

Tracking and record keeping

All initial assessment results and learner tracking are saved on your own area of the server and can be interrogated for reporting at any time. This makes record-keeping and applying for funding easy. Exporting the data to other systems such as Maytas or EBS for ILR submission, is also straightforward.

Automatic individual learning plan

An individual learning plan (ILP) is automatically created when a student completes the initial assessment. This is editable, so a tutor can add personal touches as required.

The ILP will direct learners to *Target Skills* learning resources as well as appropriate areas of free resources that are available and mapped to the adult core curricula, such as BBC Skillswise, NIACE, and DfES resources.

What is included?

Target Skills Gold provides:

- a screening quiz to identify level
- *Target Skills: Initial Assessment* – on line and with full reporting
- the full library of *Target Skills* literacy and numeracy resources at Entry 1 to Level 2, including the *Target Skills for Work* materials.
- links to suitable free learning material – all mapped to adult core curricula
- links to the practice tests
- links to your nearest National Test centre.

What equipment is needed to run it?

- PC with Internet access
- Windows 2000, XP or higher
- IE6 or above or recent Mozilla-based browser (e.g. Netscape 7, Firefox 1.5)
- Flash Player
- Pentium III or above
